

# BANGLADESH YOUTH ASSOCIATION FOR CANCER AWARENESS

## RECOMMENDATION LETTER

Dear Admissions Committee,

It's my pleasure and honor to recommend Kanad Kapil as a candidate for your undergraduate program at your university. I have supervised Kapil as a founder of BYACA for the past event "Bangladesh Cancer Awareness Week 2021". Over the event, I have watched him develop into a confident and capable leader and an excellent volunteer.

Bangladesh Youth Association for Cancer Awareness (BYACA) is the biggest youth organization working against cancer in Bangladesh. With a team of 200 active youths from different institutions of the country, BYACA created a movement that spurred a change in the perspective of people towards cancer. It is a non-profit organization comprising young people dedicated entirely to raising awareness about cancer, collecting capital for those who have been affected, and saving precious lives. We are working hard and solely to visualize our dream of a "CANCER-FREE WORLD." Kapil was selected as a volunteer in the "Bangladesh Cancer Awareness Week 2021" out of more than 200 applicants and had to go through a rigorous selection procedure. Since the start of his journey with BYACA, Kapil has constantly demonstrated that he is a confident, well-organized, diligent, and capable person. He not only supervised but also assisted other volunteers with any issues they may have.

Throughout her time with our team, Kapil proved himself to be a hard-working, motivated, ambitious, charismatic, and reliable executive. Positive feedback about working with Kapil has poured in from her co-workers. Our team also holds Kapil in the highest regard, not just because he's a great person but also because he's taken a proactive role in organizing the event.

A short anecdote to illustrate Anindita's character:

During the "Bangladesh Cancer Awareness Week 2021" Kapil took the responsibility of communicating with different sponsors and bestowed himself for our volunteering work. He approached different companies and was able to manage Beacon Pharmaceuticals Ltd as our co-sponsor. He has been nothing short of remarkable.

In conclusion, Kapil has my highest recommendation as an exemplary student. He has demonstrated excellence in all that he puts his mind to, whether working for our organization or his academics. I know this ability to lead and organize will serve him well in a college setting. The confidence and charisma that he has developed over his employment period are phenomenal and I look forward to seeing that continue in college. Please don't hesitate to contact me if you have any questions.

Sincerely,  
Aurpon Chowdhury  
Founder & President  
Bangladesh Youth Association for Cancer Awareness
